Psychic Readings Website

A simple, single-file website for a psychic reading business built with plain HTML and CSS. No build tools or frameworks needed.

Use it

1. Open `index.html` in your browser to preview it.
2. Edit the text and the colors (CSS variables at the top of the `<style>` block).
3. Host it anywhere that serves static files, such as GitHub Pages, Netlify, or Cloudflare Pages.

Contributing

Issues and pull requests are welcome.
